

CERAMIC SUPPORT RODS

ICP manufactures custom ceramic rods using proprietary compositions, specifically designed for investment casters looking to reinforce the structural integrity of ceramic shells. These rods are engineered to strengthen areas requiring additional support and are offered in a wide range of sizes, lengths, and geometric designs—including round, half-round, square, rectangular, and serrated profiles. Samples are available upon request.

The ICP Advantage

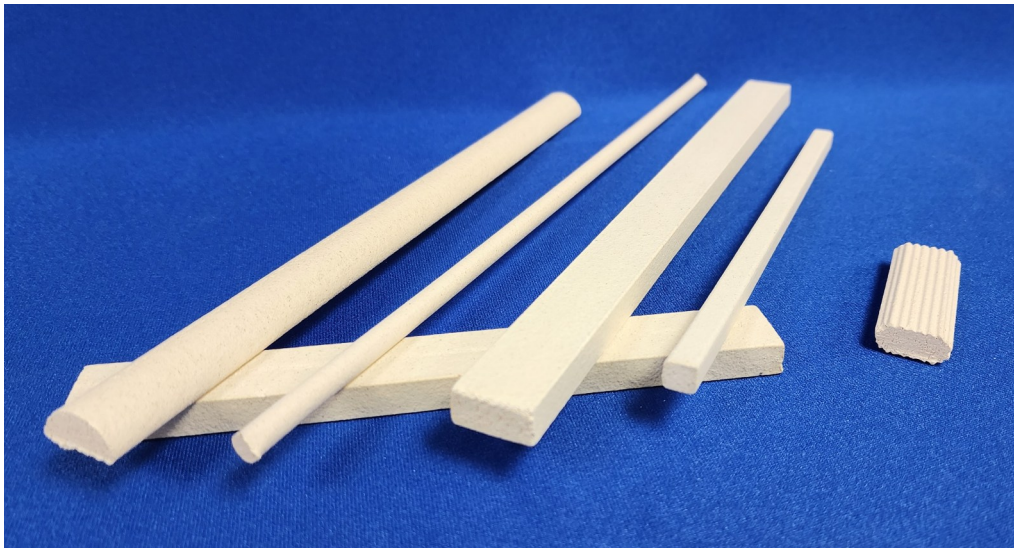

- Made in the USA
- ISO Certified
- Premium Materials
- Lighter Weight Technologies
- Custom Options
- Fast Delivery Times
- New Technologies

Benefits of the products

- Reinforces structural integrity of molds
- Adds strength where additional support is required
- Offered in a wide range of sizes, lengths, and geometric shapes
- Lengths available from 1" - 24"

Applications of the products

- Round
- Half round
- Square
- Rectangle
- Serrated
